

92626/92727 - Audiologist Denial

07/01/2026

Meridian has identified an issue causing audiology claims billed with CPT® codes 92626 and 92627 to deny in error.

These procedure codes are listed on the Practitioner (PRAC) fee schedule as covered only for MMAI/DSNP. However, according to the Audiology fee schedule, these codes are payable for eligible audiology services. As a result, affected claims have denied incorrectly.

This issue impacts claims with dates of service on or after June 1, 2025. All affected claims will be reprocessed automatically, and no further action is required from providers.
