Provider Education
Adults' Access to Preventive/Ambulatory Health Services

Did you know?

7 out of 10 U.S. deaths are caused by chronic disease. Roughly half of the country's population has been diagnosed with a chronic illness, including heart disease, cancer, diabetes, AIDS, or other conditions classified by the medical community as preventable.*

How often should patients have preventive care visits?

Primary Care Visits: Adults should have one or more primary care provider (PCP) visits per year. These visits should be preventive/health maintenance in nature or address a specific concern.

If you have questions, please call Meridian at: 866-606-3700. Fax medical records to: 312-508-7213.

How is access to care reported?

Adults should have one or more primary care provider (PCP) visits per year. These visits should be preventive/health maintenance in nature or address a specific concern.
