

Medicaid 2022 Partnership for Quality Program

In a time like no other, where change is the norm, one thing remains true: Your dedication to your patients. You strive daily to help them improve their overall health and quality of life. To recognize you for the measures you help patients meet, we offer our Meridian Partnership for Quality (P4Q) Program.

We know our success is based on the relationships we have with our providers. One of the ways we cultivate those relationships is by offering several distinct incentive programs that differentiate us. The P4Q Program is a pay-for-performance incentive program for our contracted providers to align with our goal of delivering the highest quality of care. We reward providers for completing quality preventive healthcare services such as immunizations, well-child visits, and prenatal care.

Programs like this have made Meridian an industry leader and align with our mission to help those eligible for government-sponsored healthcare plans live better, healthier lives. We thank you for your continued support and dedication to our members.
