PROVIDER TOOLS

Claim Submission Requirements

- DASA services may only be rendered from a site that is certified by DHS Division of DASA. The NPI providers bill Meridian under must correspond to a DASA certified site
- Providers offering both substance abuse services and mental health services from the same site may not utilize the same NPI number for billing substance abuse and mental health services. Mental health services must be billed under a separate NPI number from the substance abuse services
- All outpatient DASA services are to be submitted on an 837P claim. All inpatient/residential services are to be submitted on an 837I claim, in line with the Claim Type listed in Table 1
- DASA residential/institutional services are to be billed as one global rate on a single 837I claim-domiciliary (room and board costs) and treatment costs should not be split nor should they billed separately
- **A value code of 80 is required on all 837I claims for the number of covered treatment days**
- If a member is being dually treated for both alcohol and substance abuse, the primary admitting diagnosis code should be utilized to determine the appropriate Revenue Code (944 or 945) for the claim
- Meridian will only accept DASA services billed with DASA taxonomies. The provider must bill with the NPI that is listed on the DASA rate sheet

Enrollment and Registration Requirements

NOTE: DASA providers are required by IL HFS and Meridian to acquire an NPI (National Provider Identification) number with NPPES (National Plan and Provider Enumeration System)

- The corresponding taxonomy per provider type must be registered with NPPES
- The NPI used to submit claims must also be registered with IL Medicaid IMPACT system and Meridian
- The NPI enrolled must be unique per each enrolled Medicaid Provider Identification Number (PIN)
- If the NPI used to submit claims is not registered with NPPES and/or cannot be matched with an IL Medicaid PIN, the claims will be denied reimbursement from Meridian (Excluding IMD beds for ACA)
