

TurningPoint Medicaid Notification

SEPTEMBER 2020

ILLINOIS

Dear Providers,

Meridian is pleased to announce the expansion of our Surgical Quality and Safety Management Program with TurningPoint Healthcare Solutions, LLC. (TurningPoint) to now include our Medicaid members. This program has been in place for MeridianComplete (Medicare-Medicaid Plan [MMP]) since January 2020. We will be implementing this program for our Medicaid plan, MeridianHealth, effective October 1, 2020. This program is designed to work with physicians in promoting patient safety through high quality and cost-effective care for Meridian members undergoing Musculoskeletal Surgical Procedures.

Program highlights include:

- Administrative Tools to support an efficient, user-friendly authorization process for procedures requiring precertification, in addition to procedures that do not require pre-certification but need recommended medical necessity determinations. The tools also support easy and efficient post-procedural documentation submission, which will be shared with Meridian to facilitate timely claims payment
- Specialized Peer-to-Peer Engagement where a TurningPoint physician (from the same specialty) engages the provider regarding authorization requests that require additional clinical discussion to validate the clinical appropriateness of the procedure specific to the patient's needs and current condition
- Clinical Support Tools to assist in the tracking and monitoring of patient outcomes and education around patient risks and preventive measures to better coordinate care for the member and reduce infection rates and complications due to patient comorbidities
- Provider Performance Incentives for providers who comply with program requirements to practice high quality, cost-effective care
- Reporting and Analytics that give physicians and practice administrators greater visibility and transparency into their performance compared to the practice as a whole and the rest of the market
- Food and Drug Administration (FDA) Recall Tracking and Monitoring to facilitate timely and consistent notification to the physician, patient, and plan when a member has received or needs a revision surgery due to a Class I or II FDA device recall

Prior authorization for medical necessity and appropriate length of stay (when applicable) is delegated to TurningPoint. In addition, prior authorization will be required for the following surgical procedures in both inpatient and outpatient settings:

Joint Reconstructive & Fusion Surgeries (Including all associated revision surgeries)		Sports Medicine Surgeries	
• Knee Arthroplasty	• Hip Resurfacing	• ACL Repair	
• Hip Arthroplasty	• Shoulder Fusion	• Acromioplasty & Rotator Cuff Repair	
• Shoulder Arthroplasty	• Elbow Fusion	• Femoroacetabular Arthroscopy	
• Elbow Arthroplasty	• Ankle Fusion	• Knee Arthroscopy	
• Ankle Arthroplasty	• Wrist Fusion	• Hip Arthroscopy	
• Wrist Arthroplasty		• Meniscal Repair (with or w/o allograft)	
		• Osteochondral Defect Repair
